Reasons To Attend

CalPERS pensions play a key role in helping cities and districts recruit and retain quality employees. However, pension costs are the second biggest line-item for many public employers. The retirement system is also complex, with its own legal codes, fiduciary mandates, over half a trillion dollars of assets under management, and a diverse Board made up of appointed and elected members, all while serving over 2 million members and thousands of employers across the state.

The Forum will provide opportunities to learn about current costs, investment strategy and policy matters that have a direct impact on the contributions employers pay to fund retirement benefits.

This is a great way to engage with CalPERS executives and board members and get up-to-speed on current CalPERS issues.

Who should attend?

- Board of Education Members
- Board of Directors
- Board of Trustees
- City Managers
- City Council Members
- County Supervisors
